Final year Software Engineering undergraduate student of SLIIT City Uni affiliated with University of Bedfordshire with a strong interest in MERN Stack development. I have hands-on experience building full-stack applications using MongoDB, Express.js, React and Node.js. I am passionate about developing efficient, user-friendly web solutions and continuously improving my technical skills while seeking opportunities to grow as a developer.

TECHNICAL SKILLS

Frontend Development

- React.js
- Next.js
- HTML, CSS
- Bootstrap/Tailwind CSS

Backend Development

- Node.js
- Express.js
- REST APIs
- PHP

Database Management

- MongoDB
- MySQL

Tools & Technologies

- Git & GitHub
- Postman
- VS Code
- Cursor

Web & Software Concepts

- CRUD Operations
- Agile Methodology

Cloud Technologies/Cloud Platforms

- AWS (Amazon Web Service)

PROJECTS

Villa 97 Bolgoda - Official Website (Final Year Group Project)

- Developed a full-stack web application using React.js, Node.js and PostgreSQL.
- Contributed as a **Scheduling Manager**, planning and tracking project timelines to ensure timely delivery.
- Designed and implemented a User Management System for handling user registration, authentication and data management.
- Colloborated within a team consist of five members with divided roles as Project Manager, Startup Manager, Quality Manager, Risk Manager and Scheduling Manager using version control tools to manage code and project workflow.
- Worked under the Agile Methodology Concept.

Havelock Smart Resident Portal – AI-Based System (Final Year Research)

- Developed a full stack smart resident management system using React.js, Node.js and MongoDB.
- Implemented AI-based complaint prioritization and role-based access control.
- Built features such as visitor pass generation, parcel tracking and billing management.
- Designed RESTful APIs and ensured secure, scalable system architecture.

Wealth Management App with AI Recommendation System

- Developed a full stack wealth management app using Next.js, Node.js and MongoDB during a bootcamp.
- Implemented AI-recommendation system using AWS platform.
- First time practice with Cursor ai assistant.

Inventory Management System for Seafood Restaurant

- Developed a full stack web application using React.js, Node.js and MongoDB for a University project.
- A group project done with a real client.

E-commerce web application for luxury watches

- Developed an e-commerce website with html, CSS, JavaScript, PHP and MySQL.

Banana Math Game

- Developed a user-friendly web application for a given API in university project.
- This is a puzzled game and added more events to make it fun.
- This was developed by using html, CSS, JavaScript, PHP and MySQL.

EDUCATION

Higher Diploma in Information Technology

SLIIT CITY UNI (2023-2025)

Certificate in Human Resource Management

CIPM (2022)

Certificates

- Completion certificate from AI-Bootcamp conducted by CodeWave Academy.
- AI & ML certificate from American Institute of Innovation.
- Certificate in Human Resource Management.
